Experiences

Software Engineer

FDSSoft

Ho Chi Minh City **MAR 2022 - JUN 2023**

- **Talentine Project:** Developed login functionalities for Google, Facebook, and Apple accounts, built the iOS version of the app, configured app content for review on the Apple Developer and edited some features in the Unity source code for [Talentine](https://www.talentineapp.com) (<https://www.talentineapp.com>) mobile application using Unity.
- **TalentiDO Mobile Application Project:** Led and developed mobile versions for the [TalentiDO](#) mobile application using React Native. Configured and submitted both [Android](#) and [IOS](#) versions for review. Both applications are now available on the [Google Play](https://play.google.com/store/apps/details?id=com.talentiido.mobile) (<https://play.google.com/store/apps/details?id=com.talentiido.mobile>) and [App Store](https://apps.apple.com/app/talentiido/id1658689767) (<https://apps.apple.com/app/talentiido/id1658689767>).
- **TalentiDO Website Project:** Enhanced NFT marketplace with token trading functionality, added buying and selling of cryptocurrencies. Experienced in integrating Stripe for secure payment processing. Updated facial recognition and credential verification features. Upgraded website interface in two website talentiido.com and talentiido.io using ReactJS and NodeJS.
- **365FDS Mobile Application Project:** Developed customer's interface and navigation functionalities, google map for a mobile app project offering truck rental services [365FDS](#) using React Native.

Software Engineer, Intern

FPT Software

Ho Chi Minh City **MAY 2021 - AUG 2021**

- Designed an interactive demo interface for an e-commerce website and a diagnostic interface for a dental clinic in Japan. Using Reactjs
- Implemented logging functionality and contributed to interface tasks for the team's project. Using React, Node.js, and JavaScript.

Projects

MiSmart

- Link Demo: <https://mismart.vercel.app/>
- Website connect student and tutor and support LMS for teaching process
- This is my capstone project in FPT University. My part is coding frontend for this website. I using ReactJS for coding this part.
